## **Make Earth Day Everyday - Starting with your skin care products!**

Brighton, Colorado -- March 21, 2010-- Smart, naturally sexy and always in cooperation with Mother Nature, Lily Organics skin care can be found in Vitamin Cottage and Whole Foods stores in Colorado and New Mexico, and at the Lily Organics online store. Lily Organics, the first and only skin care company in the world, that is also a U.S.D.A. Certified Organic Grower, is making it easy for customers to live a more eco-friendly life. By never using synthetic chemicals, packaging in glass, growing their own ingredients, and shipping in recycled boxes, Lily Organics enables its customers to celebrate Earth Day everyday through their skin care choices.

"Most skin care companies add synthetic chemicals to their products, and manufacture them in large factories, many overseas." said Lily. "Excessive waste is created from over-packaging, shipping and transportation."

Lily Organics, founded in 1986 by Lily Morgan, utilizes Lily's own organic farm, pure essential oils, and organically grown herbs, while supporting sustainable agriculture and producing the least waste possible. Chemical-free and high performing, these luxuriantly pure lotions, creams, oils and toners, are handcrafted and made fresh weekly in an FDA inspected lab at her USDA Organic farm. They are truly "Seed to Shelf."

As a farmer's daughter with a family history of farming dating back at least seven generations, to before the American Revolution, Lily learned respect for the land by helping to care for it.

Consciously—and responsibly—crafted skin care products, the Lily Organics line shares the love and healing of the earth through natural beauty enhancing formulas. It is fresh, organic, chemical-free skin care, Earth Day can be everyday.

Lily Morgan is the author of *Beauty, Health, and Happiness-A way of life*. She is the founder and formulator of Lily Organics, Fresh, Chemical-free skin care line of facial care products.
